SOFTWARE ENGINEER

I am Kiya Zewdu, a recent Software Engineering graduate from Bahir Dar University with a robust background in website development and a passion of designing and developing secure, user-friendly applications. I have honed my skills through an internship focused on website development. Throughout my studies, I have gained extensive knowledge and hands-on experience in various areas of software engineering, including web development, database management, and algorithm design.

STRENGTHS AND EXPERTISE

Programming Languages

JavaScript, React Js, C++, MongoDB, Git, Figma, Tailwind CSS, Bootstrap, Sass.

Soft Skills

Excellent Communication, Team work and collaboration, Problem-Solving, Time Managment, Dedication

WORK EXPERIENCE

Kuraz Technologies

March 2023 - July 2023

Front-end web developer (Intern)

During my four-month internship at Kuraz Tech, I served as a Frontend Developer.

Accomplishments:

- Gaining hands-on experience in developing and maintaining responsive web applications
- I collaborated closely with backend developers to integrate APIs and optimize the user interface for enhanced functionality and user experience
- This internship allowed me to strengthen my skills in HTML, CSS, JavaScript, Database management and modern frameworks like React and Tailwind CSS, while also developing a keen understanding of secure coding practices and cross-browser compatibility

Yeha Tech

November 2023 - August 2023

Front-end web developer

- Collaborated with back-end and front-end developer teams to ensure a seamless user experience
- Developed visually appealing and user-friendly UI, integrating with API for optimal performance
- Successfully worked with the back-end team to guarantee smooth functionality throughout the project phases:
 - - Phase 1: Prepared SRS document
 - - Phase 2: Developed UI
 - - Phase 3: Worked on the Front-end part
 - - Phase 4: Integrated with the API
- Utilized tech stack including MongoDB, Node.js, and React JS to enhance project capabilities

- Developed engaging and informative content in Afan-Oromo for Kuraz Tech's learning platform
 - Collaborated with team members to brainstorm and execute creative content ideas
 - Ensured content was accurate, well-researched, and aligned with brand guidelines
-

EDUCATION

Bahir Dar University

September 2019- August 2024

Bachelor of degree in Software Engineering

- CGPA 3.35

St.Mary University college

October 2021- September 2025

Marketing Management (distance)

COURSES & CERTIFICATIONS

- Data Analysis Fundamentals: Udacity
 - UI/UX Fundamentals : Great learning
 - Employability and Job readiness : Dereja
 - Certificate of successfully completing the internship program : Kuraz Technologies
 - For outstanding students under summer outreach : Jimma University
-

RELEVANT INSTITUTE COURSES

- Data Analysis, UI/UX design, Computer Programming, Virtual Assistant
-

PROJECTS

- Developed and implemented a user-friendly and well-organized Online Examination System as a Course Project

Utilized tech stack : MERN (MongoDB, Express, React.js, Node.js) to create a seamless user experience.

- Developed and implemented a user-friendly and responsive Home rent website.

Utilized tech stack : MERN (MongoDB, Express, React.js, Node.js).
